

March 20th, 2020

Dear Patients,

Firstly, we wanted to thank you for choosing us for your dental needs and for trusting us with your care. Due to the current health crisis surrounding COVID-19, and following the recommendation of the American Dental Association, we have made the very difficult decision to close our office for all routine dental care until April 6th for the safety of all involved. We will constantly be monitoring the situation and will not open unless we can do so safely.

We will be available to triage emergencies over the phone, email, or through our Facebook messenger. If you are experiencing bleeding that won't stop, facial swelling, severe toothache, then please reach out. Most emergencies can be handled with medication so that you can remain safely at home. Rest assured we will ALWAYS be here to discuss any concerns and determine the best course of action together.

We encourage you to check Facebook for any updates surrounding this matter as this situation is constantly evolving. We have a commitment to care for our community and we feel this is in the best interest of our town, our patients, and our staff. We look forward to opening our doors to our neighbors and friends as soon as we can do so safely. We appreciate your loyalty, friendship, and your understanding during this challenging time and hope to see you all very soon. We hope you take the time to practice social distancing, enjoy time with your family, pick up a new hobby, and most of all stay positive. We will get through this together!

Your dental family at Mullica Hill Family Dental
